

YY Inc. Closes Offering of US\$1.0 Billion Convertible Senior Notes

June 25, 2019

GUANGZHOU, China, June 24, 2019 (GLOBE NEWSWIRE) -- YY Inc. (Nasdaq: YY) ("YY" or the "Company"), a leading global social media platform, today announced that it closed the offering (the "Notes Offering") of US\$500 million in aggregate principal amount of convertible senior notes due 2025 (the "2025 Notes") and US\$500 million in aggregate principal amount of convertible senior notes due 2026 (the "2026 Notes," and, together with the 2025 Notes, the "Notes"), which included the exercise in full by the initial purchasers of their option to purchase an additional US\$75 million in aggregate principal amount of the 2025 Notes and US\$75 million in aggregate principal amount of the 2026 Notes.

The Notes have been offered in the United States to qualified institutional buyers pursuant to Rule 144A and to non-U.S. persons outside the United States in reliance on Regulation S under the Securities Act of 1933, as amended (the "Securities Act"). The Notes, the ADSs deliverable upon conversion of the Notes, if any, and the Class A common shares represented thereby have not been and will not be registered under the Securities Act or the securities laws of any other place, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

In connection with the Notes Offering, the Company has entered into capped call transactions relating to each series of the Notes with one or more of the initial purchasers and/or their respective affiliates and/or other financial institutions (the "Option Counterparties"). The capped call transactions are expected generally to reduce the potential dilution to existing holders of the Class A common shares and ADSs of the Company upon conversion of the relevant Notes and/or offset any cash payments that the Company is required to make in excess of the principal amount of the converted Notes, as the case may be, with such reduction and/or offset subject to a cap. The Company entered into additional capped call transactions with the Option Counterparties with respect to the additional Notes as to which the initial purchasers exercised their option. The Option Counterparties advised the Company that, in connection with establishing their initial hedges of the capped call transactions, the Option Counterparties or their respective affiliates expect to purchase the ADSs and/or enter into various derivative transactions with respect to the Company's ADSs concurrently with, or shortly after, the pricing of the Notes. This activity could increase (or reduce the size of any decrease in) the market price of the ADSs or the Notes at that time.

In addition, the Option Counterparties or their respective affiliates may modify their hedge positions by entering into or unwinding various derivative transactions with respect to the ADSs and/or by purchasing or selling the ADSs or other securities of the Company in secondary market transactions following the pricing of the Notes and prior to the maturity of each series of the Notes. The Option Counterparties may engage in such activity during any observation period relating to a conversion of each series of the Notes. This activity could also cause or avoid an increase or a decrease in the market price of the ADSs or the Notes, which could affect noteholders' ability to convert the Notes and, to the extent the activity occurs during any observation period related to a conversion of the Notes, it could affect the number of ADSs and the value of the consideration that noteholders will receive upon conversion of such Notes.

The cap price of the capped call transactions is initially US\$127.87 per ADS, representing a premium of approximately 80% to the Nasdaq closing price of the Company's ADSs on June 19, 2019, which was US\$71.04 per ADS and is subject to adjustment under the terms of the capped call transactions.

This press release shall not constitute an offer to sell or a solicitation of an offer to purchase any securities, nor shall there be a sale of the securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful.
