Looking forward, we remain committed to continuous product innovation and technology advancement to uphold YY’s market leadership in the live streaming industry.”

Mr. Bing Jin, Chief Financial Officer of YY, further commented, “We are pleased to deliver another quarter with strong financial results. During the second quarter, our total net revenues increased by 44.6% year over year to RMB3,773.2 million, exceeding the high end of our previous guidance range. In addition, our non-GAAP net income attributable to YY increased by 51.6% year over year to RMB873.2 million in the second quarter of 2018. Use of Non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). YY uses non-GAAP operating income, non-GAAP operating margin, non-GAAP net income attributable to YY Inc., non-GAAP net margin, and basic and diluted non-GAAP net income per ADS, which are non-GAAP financial measures. Non-GAAP operating income is operating income excluding share-based compensation expenses, impairment of goodwill and investments, and gain on deconsolidation and disposal of subsidiary. Non-GAAP operating margin is non-GAAP operating income as a percentage of net revenues. Non-GAAP net income is net income excluding share-based compensation expenses, impairment of goodwill and investments, gain on deconsolidation and disposal of subsidiary, gain on deemed disposal and disposal of investments, gain on fair value change of investments and equity investees' investments, fair value loss on derivative liabilities, and income tax effects of above non-GAAP reconciling items. Non-GAAP net income attributable to YY Inc. is net income attributable to YY Inc. excluding share-based compensation expenses, impairment of goodwill and investments, gain on deconsolidation and disposal of subsidiary, gain on deemed disposal and disposal of investments, gain on fair value change of investments and equity investees' investments, fair value loss on derivative liabilities, deemed dividend to subsidiary's Series A preferred shareholders and income tax effects of above non-GAAP reconciling items and adjustment for non-GAAP reconciling items for the income attributable to non-controlling interests. Non-GAAP net margin is non-GAAP net income attributable to YY Inc. as a percentage of net revenues. Basic and diluted non-GAAP net income per ADS is non-GAAP net income attributable to YY Inc. divided by weighted average number of ADS used in the calculation of basic and diluted net income per ADS. The Company believes that separate analysis and exclusion of the non-cash impact of above reconciling items adds clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with GAAP financial measures to obtain a better understanding of its operating performance. It uses the non-GAAP financial measure for planning, forecasting and measuring results against the forecast. The Company believes that non-GAAP financial measure is useful supplemental information for investors and analysts to assess its operating performance without the non-cash effect of (i) share-based compensation expenses, which have been and will continue to be significant recurring expenses in its business, (ii) impairment of goodwill and investments, gain on deconsolidation and disposal of subsidiary, gain on deemed disposal and disposal of investments, gain on fair value change of investments and equity investees' investments, fair value loss on derivative liabilities, and deemed dividend to subsidiary's Series A preferred shareholders, which may not be recurring in its business, and (iii) income tax expenses and non-GAAP adjustments for net income (loss) attributable to non-controlling interest shareholders, which are affected by above non-GAAP reconciling items. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact the Company's net income for the period. In addition, because non-GAAP financial measures are not measured in the same manner by all companies, they may not be comparable to other similar titled measures used by other companies. In light of the foregoing limitations, you should not consider non-GAAP financial measure in isolation from or as an alternative to the financial measure prepared in accordance with U.S. GAAP.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation from, or as a substitute for, the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned “YY Inc. Reconciliations of GAAP and Non-GAAP Results” near the end of this release.
